

**MODEL 53L SERIES LEVERS WITH ROUND ROSES**

**FEATURES**

1. Non-handed and easy to install
2. Lever handle allows convenient one hand operation
3. Available in US32D (630)
4. Trim has two through bolts that connect to the device chassis providing increased durability and security
5. Lever is freewheeling (clutch). The lever will rotate when locked to prevent excessive force being applied. This reduces the chances of the lever being damaged.
6. These trims have four operational options as per the table below.
